Modigliana, 23 May 2008

FSC CERTIFICATION FOR ALPI POPLAR

Alpi spa, an international industrial group operating in the field of wood processing and transformation, has obtained **certification** covering the use of **poplar for the production of multilaminar wood** in accordance with **FSC (Forest Stewardship Council)** standards. With this important certificate (number **SGS-COC-004194**) Alpi spa is taking a further step forward in its environment strategy and is clearly demonstrating its commitment to achieving excellence in the use of natural resources.

As a result, Alpi spa is now able to provide its customers the world over with FSC certified multilaminar wood veneers, also in HPL version.

Alpi spa is also committed to **promoting awareness** among its poplar suppliers and encouraging them to further expand the wooded areas managed according to the FSC criteria.

The trademark of the Forest Stewardship Council indicates that the wood used to make the product comes from forests which are well managed according to **strict** environmental, social and economic standards and from other controlled sources.
