Report No. QA-2010-1259

Type of report:

Supervision report on the inspection of the manufacturer's factory production control according to the „Regulation on the classification and external supervision of wood-based panels regarding formaldehyde emission (DIBt-Richtlinie 100)“ version June 1994 resp. to the “Regulation on the Prohibition of Chemicals [Chemikalien-Verbotsverordnung (ChemVerbotsV)], in first half year in 2010.

Manufacturer:

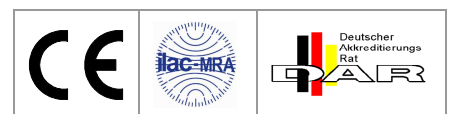

Alpi S. P. A.
Viale della Repubblica 34
47015 Modigliana
Italy

Content of report:

1. Task	Page 2
2. Execution	Page 2
3. Results	Page 3
4. Assessment	Page 3

The inspection report comprises 3 pages. This report is not permitted to be published incompletely. A publication in extracts is in any case subject to the previous consent of Fraunhofer-Institut für Holzforschung, Wilhelm-Klauditz-Institut (WKI), Bienroder Weg 54E in 38108 Braunschweig (Germany).

- The quality control documentation as test records of formaldehyde emission tests and production records were checked.
- The quality control facilities for formaldehyde emission tests (laboratory and equipment) were inspected.
- The quality control employees were interviewed.
- Samples were selected for independent testing.

3. Results of the inspection

- All relevant manufacturing parameters and procedures are recorded in regular intervals allowing the detection of production failures and products not meeting the requirements.
- Quality control samples are taken randomly according to the required testing frequency and become analyzed within the specified period of time after manufacture.
- The laboratory equipment is regularly maintained, calibrated and suitable for the determination of formaldehyde release according to 717-2.
- The quality control employees have adequate experience and training to conduct accurate chemical analytical tests.
- The manufacturer determines a running average value for half a year to assure the compliance with the applicable emission standard.
- The manufacturer labels complying goods with the required information to identify the articles.

Complaints:

4. Assessment

The product specified in section 1 fulfill the requirements of the „Regulation on the classification and external supervision of wood-based panels regarding formaldehyde emission (DIBt-Richtlinie 100)“ version June 1994 resp. of the “Regulation on the Prohibition of Chemicals [Chemikalien-Verbotsverordnung (ChemVerbotsV)] and can be marked with formaldehyde emission class "E1".
